A MESSAGE FROM

THE MINISTRY OF EDUCATION AND TECHNICAL EDUCATION

Welcome to Your English Learning Journey!

Dear Students, Educators, and Stakeholders,

It is with great pleasure that the Ministry of Education presents the preparatory framework for Egyptian learners. This comprehensive textbook has been meticulously developed to support our young learners in acquiring essential English language skills while honoring and integrating the rich cultural heritage of Egypt.

Our Vision for English Language Education:

In today's interconnected world, proficiency in English is a vital skill that opens doors to global opportunities and fosters cross-cultural communication. Our vision is to equip Preparatory Stage students with a strong foundation in English, enabling them to navigate academic pursuits and future careers with confidence and competence.

Key Features of the Textbook:

- Age-appropriate **vocabulary**, **grammar**, and **functions** taught in context.
- Focused development of **listening**, **speaking**, **reading**, and **writing** skills.
- Scaffolded writing tasks that progress from guided to independent writing.
- Meaningful vocabulary reinforcement using **visuals** and **themes**.
- Activities designed to develop **higher-order thinking**, not just memorization.

Commitment to Excellence:

The Ministry of Education and Technical Education is dedicated to providing high-quality educational resources that meet the evolving needs of our students. These textbooks embody our commitment to excellence in English language education, ensuring that every student has the opportunity to succeed academically and personally.

Join Us in Shaping the Future:

As we embark on this educational journey, we invite educators, parents, and students to collaborate in fostering a love for the English language and a deep appreciation for our cultural heritage. Together, we can build a brighter future where our young learners thrive in a global society while staying rooted in their rich Egyptian identity.

Best Regards,

The Ministry of Education and Technical Education

"A Day in My Digital Life"

Hi everyone! My name is Tarek, and I want to share my **digital** day with you.

I always start my morning by checking my phone. I usually have three or four messages from my school friends. Sometimes, my cousin from Alexandria sends me funny pictures.

At breakfast, I often use my **tablet** to **search** for news. My favorite app shows me interesting facts about animals and space. I never eat without looking at something on my **screen** – I know it's not a good habit!

At school, we sometimes use the **smartboard** in our science class. Our teacher shows us amazing videos about planets and animals. I love watching them! We also use computers in our computer class twice a week. I'm learning to type faster – I can type 25 words per minute now!

After school, I always do my homework first. I usually search for information on my **laptop** when I need help with my projects. My favorite **website** has lots of useful information for students.

In the evening, I sometimes play online games with my friends. We usually play for one hour, then we stop. My parents always remind me to take breaks from the screen.

Before bedtime, I often read **ebooks** on my tablet. I love adventure stories! But I always use the "**night mode**" so the screen doesn't hurt my eyes.

I think technology is amazing, but I'm learning to use it wisely. What about you? How do you use technology in your day?

How are you? Today I want to tell you about the **digital** devices I use every day to achieve my tasks.

First, I always do my homework on the computer. I use the **keyboard** to write my assignments. It is used for writing and typing. I also use the **mouse** to move around the screen and click on things.

When I watch videos or listen to music, I use my **headphones** or **speakers**. If I want to make a video call with my friends online, I use the **webcam**.

Sometimes, I have to record a presentation for class; that's when I use the **microphone**. At school, my teacher uses a **smartboard** to show us pictures, videos, and notes.

At the end of the day, I print my homework using the **printer**. It's super helpful!

Write soon and tell me about the digital devices you use.

Love,

Joury

LESSON 1 My Learning Journey

Find Your Learning Style
Pre-reading

1 **Read and choose the answer that best describes you: "Always", or "Never". Put a check mark (✓) and count.**

	Statement	Always	Never
1.	I learn best when my study space is organized.		
2.	I learn best when I can touch things, move around, or do activities with my hands.		
3.	I understand better when teachers talk with a lot of energy and passion.		
4.	I like to use neat notes, colorful pens, and pictures to help me remember things.		
5.	I like to say things out loud to remember them, or talk about topics with friends.		
6.	When I study, I need to take short breaks and move my body.		
7.	When I have a problem, I like to write or draw it to see the answer.		
8.	I like teachers who use examples from real life and let us do hands-on activities.		
9.	I learn best in quiet places, away from talking or music.		

Visual	Auditory	Kinesthetic

1. If "**yellow**" has the most, you're a "**visual**" learner.

2. If "**red**" has the most, you are an "**auditory**" learner.

3. If "**green**" has the most, you are a "**kinesthetic**" learner.

nezakr.natega4dk.net

Reading

2 **Read the following text. What happens when you know how you learn best?**

Different Ways People Learn

Every person learns differently. Some people learn best by seeing information. These are **visual** learners. They like to read books, look at pictures, and use colorful notes. Visual learners often make **maps** and **charts** to **organize** information.

Other people learn best by hearing information. These are **auditory** learners. They like to listen to music while studying, discuss topics with friends, and hear **explanations** from teachers. Auditory learners often repeat information out loud to remember it.

Some people learn best by moving and touching. These are **kinesthetic** learners. They like to do **experiments**, build models, and take breaks to move around. Kinesthetic learners often use their hands to help them think.

Understanding your learning style helps you study better. When you know how you learn best, you can choose the right methods for yourself. This makes learning easier and more enjoyable.

Think about this

3 **Read the following text again, then answer the questions.**

1. What is the main idea of this text?

2. How can understanding your learning style help you?

3. What are the three learning styles in the text?

Vocabulary

4 **Match the words from column A with the suitable meanings from column B.**

A	B
1. visual	☐ related to hearing things

LESSON 3 Benefits of Learning Together

Before you start

1 **Answer the following questions.**

1. What is your favorite sport?

2. Where do you play it?

Reading

2 **Read the following text. Do students enjoy group learning?**

Learning in groups has more **benefits** than learning alone. When students work in large or small groups, they share opinions, discuss problems, and find **solutions** to them. Teamwork helps students **develop** their skills and be **confident**. It also helps them know how to **communicate** with others and understand them. When a student shares their opinion about a topic, they learn how to express themselves freely using their own words. Teamwork teaches students **cooperation** and **leadership**; it also helps them to be **creative** thinkers. Learning with others also helps students to make new friends because they spend much time with each other doing projects, solving problems, and doing experiments.

Modern technology makes group learning very enjoyable. Students can use **apps** and websites on the internet to find information about their work. Using **digital devices** creates powerful learning **experiences**.

a **Read again and choose the correct answer.**

1. The text is about .....

a. Studying alone is better than working in groups.

b. Technology makes school easier.

c. Learning with others has many benefits.

d. Students should use apps for every lesson.

2. According to the text, how does group learning help students?

a. They watch videos together.

b. It helps them make new friends.

c. They use smartphones.

d. They take tests together.

3. What life skills does the text say students can learn from working in teams?

a. Reading and writing

b. Cooking and cleaning

c. Cooperation and leadership

d. Drawing and painting

nezakr.natega4dk.net

4. The underlined word "**apps**" most likely means ..... .

a. tools and devices **b.** food and drinks

c. advertisements **d.** computer programs

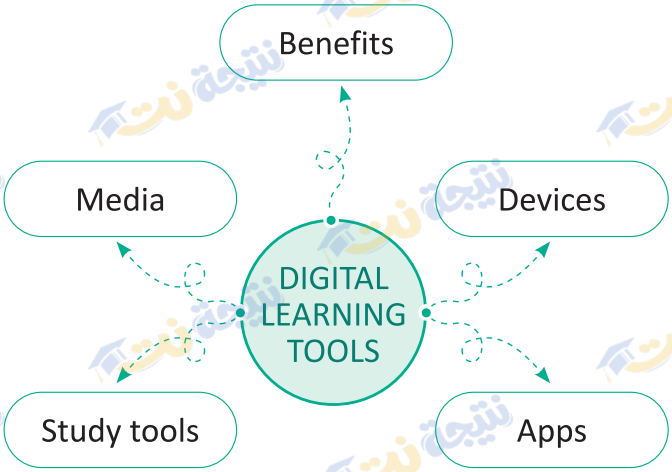

ⓑ Read again and answer the following questions.

5. Why do you think working in a group can help students feel more confident when learning a new language? Give one reason.

6. How can students use technology to work together?

Word-building skills

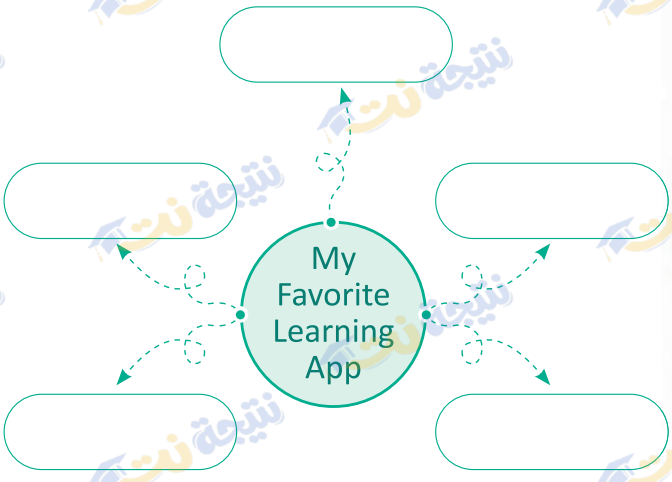

3 Read and learn.

Tip

- A spidergram is a diagram that helps us organize ideas.
- It looks like a spider with legs!
- The main idea is in the middle.
- The "legs" show supporting details / ideas or examples.

4 Read and complete the spidergram.

LESSON 4 Story Time

The Magic Classroom

Chapter Two
The Power Of Unity

Before you read, discuss in pairs

1 **Answer the following questions.**

1. What does **courage** mean?

2. How does courage help you pass hard situations?

2 **Read the following text. What did the children do in front of the invisible bridge?**

The next time the students entered, the Magic Classroom was more difficult. In front of the children was an **invisible** bridge.
A glowing sign read: "Only those with **respect**, ambition, and courage can cross."

Sara thought for a moment. "Respect means we listen and care for each other."

Zain added, "**Ambition** means we believe in our success."

Omar took a deep **breath**, "**Courage** means we try even when we are scared."

They stepped onto the invisible bridge, holding hands and encouraging one another. Every kind word they spoke and every brave step they took made the bridge appear slowly **beneath** their feet. When Omar **hesitated**, his friends cheered him on, reminding him he wasn't alone.

nezakr.natega4dk.net

At the end of the bridge, a golden door appeared with a message: "**Determination** opens every door. Never give up."

The team tried many ideas but nothing worked. Hours passed. They refused to quit. Finally, Omar whispered, "Let's sing together. Maybe **unity** is the key."

They sang, and slowly, the golden door opened. They clapped and laughed, proud of their teamwork.

Read together again. Then, in pairs do the following tasks

3 **Match the words from column A with the suitable meanings from column B.**

A	B
1. invisible	☐ showing care and kindness to others
2. respect	☐ a strong desire to achieve
3. courage	☐ cannot be seen
4. ambition	☐ being confident, not afraid

4 **Read and write (T) True or (F) False.**

1. The children crossed the bridge holding their hands. ◯

2. The sign for the bridge listed "Kindness" as a required quality. ◯

3. The bridge appeared instantly as they stepped on it. ◯

4. Unity can't help them open the golden door. ◯

5 **Answer the following questions.**

1. What did Sara think about respect?

2. What did they find at the end of the bridge?

3. Who hesitated on the bridge?

Life skills

- To succeed in life, you should have ambition and courage.
- Never give up; determination opens every door.

6 **Critical Thinking**

Answer the following questions.

1. How did the kind words help the children?

2. "Maybe unity is the key." What do you think this sentence means?

2. Do you have an inspiring person in your life? Who is this person?
3. What qualities (for example: kindness, determination, courage) do you think a scientist needs to help their community?

Reading

2 **Read the following text. Why was Samira Moussa a symbol of hope for many Egyptian girls?**

Dr. Samira Moussa

Dr. Samira Moussa was a true **hero** who continues to **inspire** people today. She was born in Egypt in 1917 and showed a great love for science from a young age. She was **determined** to study physics and became one of the first Egyptian women to get a PhD in Atomic Radiation.

Samira was **kind** and always wanted to help her community. She believed that science should be used for peace and to improve people's lives. She often said, "My wish for cancer treatment is to be as cheap as aspirin." She worked hard in research and taught students at Cairo University.

She traveled to the United States to continue her research and to share knowledge with other scientists. Her **achievement** in science and her moving spirit made her a symbol of hope for many Egyptian girls.

Sadly, she died in a car accident in 1952, but her work still inspires scientists around the world. Dr. Samira Moussa's story teaches us to be brave, caring, and determined in helping our community.

Chapter Three
The Greatest Lessons

The Magic Classroom

Before you read, discuss in pairs

1 **Answer the following questions.**

1. Do you think the children will reach the final room?

2. What do you think they will find in the final room?

2 **Read the following text. What were the greatest lessons the children learned ?**

Inside the final room, the children found a glowing book on a crystal stand. Mr. Adam appeared with a warm smile. "You have completed the Magic Classroom," he said. "But remember, the real magic is not in the puzzles, it is in the values you showed."

He opened the magical book, and glowing words appeared: "**Responsibility. Curiosity. Teamwork. Respect. Determination. Courage.**"

Sara smiled, "We solved every problem by working together."

Zain added, "We respected each other and stayed curious."

Omar **grinned**, "I had courage because my friends believed in me."

Mr. Adam **nodded**, "You also showed **honesty**—doing the right thing even when no one was watching."

The children returned to their classroom, their hearts full of pride and happiness. From that day on, they promised to use these values in everything they did—at school, at home, and online.

They knew that the greatest lessons they had learned were not about magic, but about **kindness**, respect, and never giving up on themselves or each other.

2. What were your options?

3. What was the result?

Reading

2 **Read the following text. How many people did Youssef invite to his party ?**

Youssef was excited about his birthday and planned a small party after school. He invited eight close friends who had been **responsible** in class and finished their homework. A day before the party, two classmates asked to join. They weren't very close to Youssef, and one had been **careless** in class. Youssef faced a difficult **decision**. He thought, and said "If I let them come, the party may become too big and make others uncomfortable. And if I say no, the two may feel left out." He carefully thought about the **positive** and **negative** sides of each choice. In the end, Youssef made a responsible and polite decision. He explained that the party was only for close friends who had behaved well, and he encouraged the boys to be more responsible in the future. To his surprise, they understood and respected his decision. One even promised to improve. The party was a success, and Youssef felt proud and said, "If everyone thinks well before taking a decision, they won't make mistakes."

1. Do you think good friendships help with teamwork?

2. How can we support each other in teamwork?

2 **Read the following text. What was the team proud of?**

Days passed, and the Water-Saving Machine started to take shape. But the team faced another problem. The machine worked, but not **perfectly**. Some members felt discouraged.

Sara gathered them and said, "Our purpose isn't just to win the competition, it's to help people. Let's not lose hope."

Omar nodded, "We have an aspiration—to save water for our village. We can do this!"

Lily, who felt **shy** before, found her voice, "We can make it better if we test it again and again."

The team worked late, supporting each other. They respected every idea, and organized the work when dividing tasks, and sharing steps along the way. When Karim made a mistake, no one blamed him. Instead, they helped him fix it.

Finally, the machine was ready. It used rainwater to water plants and clean small pathways. It wasn't perfect, but it was **unique** and full of heart.

The team were proud of what they built—not just the machine, but the friendship they shared.

LESSON 1 Being a Global Citizen

Before you start

Think and discuss in pairs

1 **Answer the following questions.**

1. Is it good to respect how other people live and what they believe? Why?
2. What can you do to help your school and your community?
3. Do you think small actions can change the world?

Reading

2 **Read the following text. How can you change the world?**

School Handbook: Being a Global Citizen

At our school, we believe every student is part of a community and is a citizen of the world. As **global citizens**, we must follow each rule and law to keep everyone safe and happy. We mustn't be unkind or **unfair** to others. Instead, we should be kind and help each other every day.

To **protect** our planet, we must keep our school clean and save water and electricity. We mustn't waste food or throw rubbish on the ground. We also must **encourage** students to volunteer to help others in need and to protect animals and nature.

Being a good global citizen means showing respect to everyone, listening to others, and working together in peace. We believe it is fair to treat all people with care, no matter where they come from. It is important to respect different cultures, languages, and traditions.

In our school, we learn to solve problems together and think about how we can **improve** our world. We must remember that even small actions can make a big difference. We can plant trees, share with others, and help keep our community safe and clean.

At our school, you are not just a student; you are a young leader who can change the world by making good choices and caring for others.

1. Have you invented anything before?

2. Why do scientists invent new things?

2 **Read the following text. Why did the teacher clap proudly for the team?**

On the day of the Invention Fair, the school playground was filled with colorful tents and curious visitors. Teams presented their projects with excitement. Sara and her team explained their Water-Saving Machine clearly and confidently.

The judges smiled and asked, "Why did you choose this project?"

Sara answered, "We wanted to create something with a purpose to help our village."

The judges nodded, impressed not only by the machine, but also by the teamwork and respect the group showed.

Though another team won first prize, Sara and her friends didn't feel sad. Their teacher clapped proudly and said, "You are the real winners. You showed honesty, cooperation, and teamwork. These values are more important than any trophy."

The children smiled and held hands.

nezakr.natega4dk.net

They knew they had created something meaningful—not just for the competition, but for their community and for themselves. They promised to carry these values into the future and help others with kindness, respect, and courage.

From that day, they became known as "The Dream Team" in their village—a team with heart, purpose, and unity.

Lesson 2 page 16 Exercise 2

Hi, I'm Ayman, a 13-year-old student.
I love my digital life! Every day, I spend about three hours on my smartphone.
I use social media to chat with my friends and watch funny videos on the internet.
It is fun but sometimes I spend too much time online. My mom says I need to reduce my screen time because it affects my sleep. She's right. Sometimes I feel tired in the morning. I also use my tablet for homework, like researching for projects.
Digital devices are great, but I think we need to balance them with outdoor activities.

Lesson 2 page 16 Exercise 4

Egypt has launched its first hybrid bus in Aswan. It runs on both electricity and diesel, helping reduce pollution and protect the environment. The bus was made by an Egyptian company and includes modern technology like smart navigation and quiet engines. It supports Egypt's Vision 2030 for clean, smart cities. Most parts of the bus are made locally, creating jobs. This bus is just the start of Egypt's journey to greener, smarter transpartation.

Lesson 5 page 22

How are you? I want to tell you about my digital day. When I get up, I always check my phone. I read messages from my friends and reply to them.
Then, I have breakfast while I use my tablet to search for the latest news.
At school, teachers usually use a smartboard to help us learn well. We always use computers in the ICT class.
After school, I often go online searching for the information for my homework. I always take information from the websites I trust.
In the evening, I sometimes play online games with my friends. I never read ebooks on my tablet.
I think they are boring. My mother always says, "Reading is better than playing online games." What about you?
Write back and tell me about your digital enjoyable.

Lesson 2 page 30 Exercise 2

Learning how to learn is one of the most important skills for students. Every person has a different learning style. Some students learn best by reading. Others by listening, and some by doing activities.
The key is to find your own style that works. Good learners don't just memorize information- they understand it. They ask questions, take notes, and review regularly.
When studying becomes difficult, good learners take breaks and try different methods. The most successful students are those who never stop trying to improve their learning techniques.

Lesson 2 page 30 Exercise 4

Hi, I'm Ahmed, a 12-year-old student. I've

nezakr.natega4dk.net

learned how to study better this year. First, I organize my notes in folders so I can find them easily. I also make a study schedule every week. This helps me focus on one subject at a time. My teacher says good study habits are important for success. For example, I study in a quiet room and turn off my phone to avoid distractions. Sometimes, it is hard to stay focus, but I take short breaks to relax. Learning to learn makes schoolwork easier and more enjoyable!

Unit 3

Lesson 2 page 44 Exercise 2

My role model is my mother.
She works very hard every day and always helps others. Even when she's tired, she smiles and takes care of our family. She inspires me to work hard at school and to be kind to everyone.
I respect her because she never gives up, even when things are difficult. She teaches me that being strong doesn't mean never feeling sad – it means keeping going. When I grow up, I want to be just like her. That's why my mother is my favorite role model.

Lesson 3 page 44

Omar: Hi, Nada. Do you know Ahmed El-Mansy?

Nada: Yes, of course. He's a brave Egyptian hero.

Omar: What was his job?

Nada: He was an officer in the Egyptian army.

Omar: What did he do for Egypt?

Nada: He fought the terrorists and protected our country.

Omar: How did he and his soldiers fight?

Nada: They defended their camp bravely and did not give up during the attack.

Omar: That's very brave! Did he save any soldiers?

Nada: Yes, he helped and saved many soldiers before he died.

Omar: Why do people love him so much?

Nada: Because he loved Egypt and gave his life to keep it safe.

Omar: What lesson do we learn from him?

Nada: We learn to love our country, be brave, and help others.

Omar: Yes, we should always remember him as a true hero.

Nada: Of course, Omar. He will always live in our hearts.

Lesson 1 page 55 Exercise 2

The Cairo Monorail Project

The Cairo Monorail is considered an important transportation project in Egypt because it helps solve traffic problems and makes traveling easier for people in crowded cities like Cairo. It connects important areas such as downtown Cairo with Giza and the New Administrative Capital.

The monorail will improve the daily life of Egyptian citizens in many ways. First, it will reduce travel time, making it faster for people to move between different parts of the city. Second, it will help reduce pollution because it uses electricity instead of fuel.

There are some main differences between the monorail and other types of public transportation. Unlike traditional trains or buses, the monorail runs above the ground on a single rail, so it doesn't get stuck in traffic. Also, it's faster, quieter, and more modern than older systems.

One of the project's goals is to encourage people to use public transportation instead of private cars. This helps reduce traffic and protect the environment. The monorail is a smart and clean way to travel in Egypt's big cities.

Lesson 1 page 55 Exercise 3

Digital learning has become a key part of modern education. With devices like tablets, smartboards, and smartphones, students can learn anywhere and work with others around the world. Online learning needs focus and motivation, but it also gives students the chance to learn in their own way.
Technology helps improve communication through apps and group chats ,and it builds important skills .However, technology alone isn't enough—teachers and community support are still very important in education.

Lesson 2 page 62 Exercise 2

Every day, we make many decisions. Some are small, like choosing clothes. Others are big, and can affect our future. Making smart choices is important because all choices have consequences.

A smart choice can lead to good results, while a poor choice might cause problems. To make smart choices, consider all your options. Then, you should think about the possible consequences of each option. Also, try to focus on what is most important for your future. For example, if you choose to finish your homework before playing, it will benefit your grades. Remember, smart choices help us reach our goals and live happier lives.

Lesson 2 page 62 Exercise 4

Yesterday, I had to make a smart choice. My friends wanted to go to the park, but I had a test today. I really wanted to go, but I remembered my teacher's advice "Think about tomorrow, not just today".
I stayed home and studied. Today, I passed my test with a high score! I felt proud because I made the right decision. Smart choices are not always easy, but they help us reach our goals. Now, my friends are proud of me too.

Lesson 2 page 76 Exercise 2

My dream is to become a graphic designer. I enjoy drawing and using technology. Last summer, I joined a free art program in my city. It was hard work, but I learned a lot. My teacher said I have a real talent, and that gave me more confidence.

I set a new goal: to design my own website. I know I'll need time, effort, and support from others. But I'm excited because every step I take brings me closer to my future.

Lesson 2 page 76 Exercise 4

Student : Hello, Dr. Farouq El-Baz! I'm very happy to meet you.

Dr. El-Baz : Hello! I'm happy to meet you, too. Do you like science?

Student : Yes, I do! I want to learn more about your work. What did you study?

Dr. El-Baz : I studied geology and chemistry at Ain-Shams University in Egypt. Then I got my PhD in Geology in the United States.

Student : Wow! That's amazing. How did you help the NASA scientists?

Dr. El-Baz : I worked with NASA during the Apollo missions. I helped the astronauts select safe landing sites on the Moon. I also trained them to read maps and collect rocks.

Student : That's great! If you want to advise students who wish to be successful scientists, what will you say?

Dr. El-Baz : You should study science, work hard, never give up, and always try to help your country and the world.

Lesson 2 page 90 Exercise 2

Mariam : Hi Zaid! Are you ready for the new project?

Zaid : I think so . Is it the one about helping our community?

Mariam : Yes! We're planning to clean the park and plant flowers.

Zaid : That sounds fun! Why are we doing this?

Mariam : Because we are learning about global citizenship. It means we must help others and take care of the environment.

Zaid : I see. So we are volunteering .

Mariam : Exactly! It's our responsibility as students.

Zaid : I like it . We can also make posters about keeping places clean.

Mariam : Great idea! We can show respect by working together kindly.

Zaid : When are we doing it?

Mariam : On Saturday morning. Don't forget your gloves!

Zaid : I won't. Let's make a big impact!

Exercise 5 page 91

My friend Hani is a great global citizen. He respects people from all cultures and loves learning about the world. Last week, he joined a community project to plant trees in our town. Hani says, "Everyone can contribute to a better planet."
He also collects clothes to give to people in need. His actions show how to care for others and the environment. Hani inspires me to be a global citizen, too. I want to respect others and help my community, just like him, to make the world a better place.

New Alamein is a marvelous city on the North Coast of Egypt. It's one of the first fourth-generation cities in the country, designed with advanced technology and smart urban planning. The city has a strong impact on tourism and the economy because it attracts thousands of visitors every year. New Alamein has beautiful sandy beaches, luxury resorts, international restaurants, culture centers that show Egypt's rich history. It also includes modern residential areas, business centers, and universities, which combine tourism , education , and work in one amazing place with its modern services and unique location. New Alamein can compete with the most famous cities and tourist destinations
in the world. Many people consider it a symbol of progress and a bright future for Egypt.

Lesson 2 page 102 Exercise 2

Planning your future career starts with knowing your talents and interests. It's okay to try different things and learn from failure. Education and training help you build the skills you need.
Besides personal goals, it's also important to be a global citizen. This means thinking about how your actions affect the world. For example, reducing plastic helps protect oceans and marine animals. Being a global citizen also means respecting others, and helping with global problems like climate change. Making smart, responsible choices now can help create a better future for everyone.
